SHORT DESCRIPTION

OX-ON V3 Harness Basic is the two-point full body harness for you, who need a flexible lightweight harness with easy-to-use quick-connect buckles that make it easy for you to put on and take off the harness. The OX-ON V3 Basic harness is a universal harness, which you can use for the vast majority of applications, and in particular it is suitable for, among other things, scaffolding and roofing work. With its adjustment options on the shoulders and legs you get a harness that is extremely easy to fit perfectly to you. It gives you great flexibility when you are wearing the harness, and it ensures you good comfort in connection with your work. The strong dorsal D-ring and front webbing loops for attachment ensures you first class safety. The harness is made of strong and thoroughly tested two-coloured webbing.
