Commode Liner, ABENA, white, with absorbing pad

- ✓ Single packed for easy withdrawal
- ✓ Leak-resistant bag
- ✓ Reduces the risk of contamination
- ✓ Quick absorption and odor control

Product Description

The ABENA Commode Liner is a leak-resistant bag with closure straps and a super absorbent pad designed for collecting, transporting, and disposing of urine or feces. The bag is designed to fit around a standard commode. The ABENA Commode liner quickly absorbs body fluids in a clean and hygienic way. The pad absorbs up to 660 ml of fluids by locking it into gel, which significantly reduces the risk of contamination, as well as splashes and odors. The bags are easily sealed with the built-in plastic strap and can be disposed of in the residual waste container. The bags are single packed, allowing single hand withdrawal and thus a hygienic handling. Our ABENA Commode Liner is an easy, convenient and hygienic solution for both users and caregivers, while also saving time and money.

Specifications

Base name	Commode Liner
