- ✓ Eco-labeled nappys with double leakage barriers and convenient wetness indicator
- ✓ Light, breathable and super soft on baby's skin
- ✓ Top quality performance
- ✓ Designed to minimize the risks of allergy and nappy rash

### Product Description

Bambo Nature is committed to providing comfy, absorbent nappy for your child but also to caring for the environment during our manufacturing process. Our nappys are produced with renewable energy (covered by renewable energy certificates) in our Danish production site. And at the same time, we ensure that our Bambo Nature nappys are completely free of dangerous chemicals and perfumes to minimize the risk of allergy and nappy rash. Our environmental commitment also extends to our nappy packaging, which consists of 30% post-consumer recycled plastic. The recycled materials originate from consumer household plastic waste, which is carefully cleaned and sorted by grade. The packaging should be recycled with other plastic waste. Our Bambo Nature nappys are FSC™ (Forest Stewardship Council), Nordic Swan, dermatologically tested and Asthma Allergy labeled. Bambo Nature – Because you care.

The Swan label, also known as the Nordic Swan Ecolabel, is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material production, use, documentation and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to [www.fsc.org](http://www.fsc.org).

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

Asthma Allergy Nordic guarantees that the products have been assessed by experts from Asthma-Allergy Nordic. Products with the label do not contain perfume, and they pose a minimal risk of skin allergy.

The product is breathable.

The Dermatologically Tested symbol guarantees that products have been tested for potential skin irritations by an independent third-party laboratory.

Wetness indicator is a liquid-sensitive strip that changes color and indicates when it is time to change the product.

The product has a very soft surface for a more comfortable fit.

The product is very flexible for excellent comfort and fit.

Special feature in incontinence products and baby diapers that help disperse fluid and keep the skin dry.
