## Briefs, ABENA Slip Premium Flexi Fit, L-XL4, purple colour code

- ✓ Stretchy and snug fit perfect for any body type
- ✓ Easy application
- ✓ Helps maintain healthy skin balance
- ✓ High performance core
- ✓ 360° leakage protection
- ✓ Wetness indicator with graduation scale
- ✓ Curved leg elastics for optimum fit
- ✓ Odour Control system

### Product Description

ABENA Slip Flexi Fit is our Premium range of fully breathable bladder protection briefs in a stretchy version for moderate to heavy incontinence. Flexible sides in the waist and fluted elastics at the lower back give a snug and comfortable fit that supports all body shapes and provides high protection even during movement. The high performance core with Top-Dry Technology helps ensure skin integrity and optimal skin care by keeping the exposed area comfortable and dry even after multiple voids. A combination of different barriers (visible and invisible) and elastics (curved leg elastic) offers 360° leakage protection all around the product. When combined, these functionalities help protect the skin and maintain a natural skin balance. High quality combi tapes ensure an optimum fit and easy repositioning. The Odour Control system minimises unpleasant smells. The wetness indicator with graduation scale guides the user and caretaker to the product with the adequate absorption level and aids product changes. The dermatologically tested products have been given the Nordic Swan Ecolabel.

### Specifications

Base name	Briefs
Brand	ABENA
Sub-Brand	Slip Premium Flexi Fit
Size	L-XL4
Colour	White
Features	Purple colour code
Material	ECF fluff, PE, breathable textile backsheet (BTBS), elastane, nonwoven, PP, resin, SAP
Length/depth	970 mm
Width	800 mm
Hip size	110-170 cm
Tolerance	+/- 10%
Absorption Rothwell	3800 ml
Gender	Unisex
Certificates	CE. MD. Nordic Swan Ecolabel. UKCA.
Nordic Swan Ecolabel License-No.	5023 0001
CE Class (Medical Devices)	Class I
Product or test standards	ISO 13485, ISO 9001, ISO 11948-1, ISO 14001
Directives, regulations and acts	MDR (EU) 2017/745

<b>Safety Instructions And Warnings</b>	Keep out of reach of children.
<b>Shelf Life</b>	5 years
<b>Storage Instructions</b>	Store dry, room temperature and no direct sunlight.
<b>Product Disposal Instructions</b>	Can be disposed of with normal household waste sorted according to local regulations.
<b>Packaging Disposal Instructions</b>	Can be recycled or incinerated.

### Instructions for use/application

Bladder protection briefs for moderate to heavy incontinence designed for highly demanding situations and for bedridden patients. Product size recognition by colour codes, names and numbering systems. It is important to always measure the hip circumference to select the right size and to choose the correct absorption level to avoid leakages. Fold the brief lengthways with the backsheet turned outwards to create a bowl shape. Pass the brief from front to back. Fan out the front of the brief, creating a channel shape between the legs. Fix the bottom tapes angled slightly upwards on both sides and then fix top tapes angled downwards for a secure and comfortable fit. You can apply the products in an upright position (both self-managed or assisted), and lying position. See the application guide in our brochure for detailed information.

The Swan label, also known as the Nordic Swan Ecolabel, is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material production, use, documentation and safety.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Leakage barriers in the leg cut and around the absorbent core help prevent leakages and provide an optimal fit.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

Flexible side panels with added elastics for easy application. A snug and secure fit supporting all body shapes.

The unique structure of our high performance core is designed for fast dispersion and encapsulation of urine, which results in a dry surface even after multiple voids.

Odor control is a critical factor in ensuring discretion for the user. ABENA's incontinence products are designed and engineered to ensure that minimal Odor arises from the product.

Wetness indicator is a liquid-sensitive strip that changes colour or fades out indicating when it is time to change the product.

A combination of 100% breathability, Top-Dry and leakage protection provides a dry surface and healthy skin even after multiple voids maintaining the skin's natural pH balance.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.

The product does not contain latex.

The bag with this symbol is made with at least 60% PCR-plastic materials (post-consumer recycled), previously used by consumers. This allows us to reduce our plastic waste and to help take care of the environment.
