## Shaped pad, ABENA San Premium Bariatric, 11/XXL, purple colour code

- ✓ Longer pad to suit a range of body shapes
- ✓ High performance core with Top-Dry Technology
- ✓ Visible and invisible leakage barriers for extra protection
- ✓ Wetness indicator with graduation scale
- ✓ Cost-effective solution
- ✓ 100 % breathability to support a healthy skin balance and an optimum comfort
- ✓ Anatomically shaped for better fit

### Product Description

ABENA San 7/XXL and 11/XXL are ABENA's range of anatomically shaped pads designed for bariatric use. The longer pad provides greater security for all body shapes. The high performance core with Top-Dry Technology helps ensure optimal skin care by keeping the exposed area comfortable and dry even after multiple voids. The fully breathable pads are fitted with standing leakage barriers combined with built-in cross barriers at the rear. When combined, these functionalities help protect the skin and maintain a natural skin balance. The Odour Control system minimises unpleasant smells. The wetness indicator with graduation scale guides the user and caretaker to determine the right absorption level and product changes. The dermatologically tested products have been certified with the Nordic Swan Ecolabel. These bladder protection pads should always be used with special fixation pants, like our ABENA Fix Pants Super 4-6XL products, both to ensure a secure fit and to reduce the risk of leakage. ABENA's two-piece systems, consisting of fixation pants and an incontinence pad, are a cost-effective solution.

### Specifications

Base name	Shaped pad
Brand	ABENA
Sub-Brand	San Premium Bariatric
Size	11/XXL
Colour	White
Features	Purple colour code
Material	ECF fluff, PE, breathable textile backsheets (BTBS), elastane, nonwoven, PP, resin, SAP
Length/depth	84 cm
Width	46 cm
Tolerance	+/- 10%
Absorption Rothwell	3400 ml
Gender	Unisex
Certificates	CE, Nordic Swan Ecolabel, MD, UKCA.
Nordic Swan Ecolabel License-No.	5023 0001
CE Class (Medical Devices)	Class I
Product or test standards	ISO 11948-1, ISO 13485, ISO 14001, ISO 9001
Directives, regulations and acts	MDR (EU) 2017/745
Shelf Life	5 years
Storage Instructions	Store dry, room temperature and no direct sunlight.
Product Disposal Instructions	Can be disposed of with normal household waste sorted according to local regulations.

**Packaging Disposal Instructions**

Can be recycled or incinerated.

**Instructions for use/application**

Anatomically shaped pads for moderate to heavy incontinence specially designed for bariatric use due to the additional pad length. Easy product recognition by colour codes, names and numbering systems. These bariatric pads should always be used with special fixation pants, like our ABENA fix Pants Super 4-6XL. That way the pad is kept in place, ensuring a tight fit and reducing the risk of leaks. Pull the fixation pants halfway up the legs. Fold the pad lengthways to create a bowl shape. Pass the pad between the legs from front to back. Position the upper rear end of the pad at the tailbone. Spread out the back of the pad horizontally to create a channel shape between the legs. Use the wetness indicator to check if the product is applied accurately in the centre. Spread out the pad horizontally at the front. Pull the fixation pants up into position. See the application guide in our brochure for detailed information.

**Packaging data**

Unit	Contains	Length	Width	Height	EAN
car	4 pck	57.6 cm	39.6 cm	36.7 cm	5713571000755

The Swan label, also known as the Nordic Swan Ecolabel, is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material production, use, documentation and safety.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Leakage barriers in the leg cut and around the absorbent core help prevent leakages and provide an optimal fit.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

The unique structure of our high performance core is designed for fast dispersion and encapsulation of urine, which results in a dry surface even after multiple voids.

Odor control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal Odor arises from the product.

Wetness indicator is a liquid-sensitive strip that changes colour or fades out indicating when it is time to change the product.

A combination of 100% breathability, Top-Dry and leakage protection provides a dry surface and healthy skin even after multiple voids maintaining the skin's natural pH balance.

The bag with this symbol is made with at least 60% PCR-plastic materials (post-consumer recycled), previously used by consumers. This allows us to reduce our plastic waste and to help take care of the environment.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.

The product does not contain latex.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.
