- ✓ Effective core with Top-Dry technology ensures fast absorption and dry surface
- ✓ Unique leakage barriers for extra protection
- ✓ Super soft – provides optimal comfort
- ✓ 100% breathability supports healthy skin
- ✓ Wetness indicator with modulation scale
- ✓ Odour Control minimises unpleasant odours

Product Description

The ABENA Man Special is specially designed for the male anatomy. This premium men's pad is designed for moderate to severe incontinence and is also a safe solution for nighttime use. ABENA Man Special is made of a high-quality nonwoven material that provides extra softness. The dermatologically tested product is equipped with ABENA's Top-Dry technology, which provides fast absorption and a dry surface, even after repeated urination, ensuring optimal skin balance and increasing comfort. The breathable and anatomically shaped diaper helps keep the skin healthy and provides a good fit. The product is equipped with a unique barrier system with built-in pockets that provide extra protection. The odour system minimises the risk of unpleasant smells. The dermatologically tested product carries the Nordic Swan Ecolabel.

Gender	Male
Certificates	CE. MD. Nordic Swan Ecolabel. UKCA.
Nordic Swan Ecolabel License-No.	5023 0001
CE Class (Medical Devices)	Class I
Product or test standards	ISO 11948-1, ISO 13485, ISO 14001, ISO 9001
Directives, regulations and acts	MDR (EU) 2017/745
Safety Instructions And Warnings	Keep out of reach of children.
Storage Instructions	Store dry, room temperature and no direct sunlight.
Packaging Disposal Instructions	Can be recycled or incinerated.

Instructions for use/application

ABENA Man Special is particularly suitable for men with moderate to severe incontinence and is also a safe solution for use at night. Product recognition using colour codes, names and numbering system. This product should always be used with special fixation underwear, such as our ABENA Fix products. Fixation pants ensure a good fit and reduce the risk of leakage. Pull the fixation pants up to the middle of your legs. Fold the pad lengthwise to create a bowl shape with the back facing outwards. Pass the pad between your legs from front to back. Place the top edge of the pad at the tailbone. Spread the back of the diaper horizontally to create a cup shape between the legs. Use the wet indicator to check if the product is positioned exactly in the centre. Fold the pad out horizontally in front. Pull the fixation pants up into place. See our fitting instructions for detailed information.

The Swan label, also known as the Nordic Swan Ecolabel, is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material production, use, documentation and safety.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Leakage barriers in the leg cut and around the absorbent core help prevent leakages and provide an optimal fit.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

The unique structure of our high performance core is designed for fast dispersion and encapsulation of urine, which results in a dry surface even after multiple voids.

Odor control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal Odor arises from the product.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Wetness indicator is a liquid-sensitive strip that changes colour or fades out indicating when it is time to change the product.

A combination of 100% breathability, Top-Dry and leakage protection provides a dry surface and healthy skin even after multiple voids maintaining the skin's natural pH balance.

The bag with this symbol is made with at least 60% PCR-plastic materials (post-consumer recycled), previously used by consumers. This allows us to reduce our plastic waste and to help take care of the environment.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.

The product does not contain latex.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.
