

Product Main Number 1000021337

Shaped pad, ABENA Light Premium, Mini 1, with release tape

- ✓ High performance core for fast absorption
- ✓ Top-Dry Technology for dry surface
- ✓ Invisible leakage barriers for extra protection
- ✓ 100 % breathability supporting healthy skin balance
- ✓ Anatomically shaped for better fit
- ✓ Odour Control system
- ✓ Dermatologically tested and Nordic Swan Ecolabel certified

Product Description

ABENA Light is our premium range of anatomically shaped bladder protection pads for light to moderate incontinence with adhesive release tape. The high performance core with Top-Dry Technology helps ensure skin integrity and optimal skin care by keeping the exposed area comfortable and dry even after multiple voids. The fully breathable pads are fitted with invisible lying leakage barriers and have a bowl shape due to elasticated foam edges offering extra protection against leakage. When combining these three functionalities – breathability, protection and Top-Dry, it helps maintain a healthy skin balance. 'All ABENA Light models (except Maxi 4A) feature a printed topsheet for an appealing design.' The Odour Control system minimises unpleasant smells. The dermatologically tested products have been given the Nordic Swan Ecolabel and are made from FSC certified materials.

Specifications

Base name	Shaped pad
Brand	ABENA
Sub-Brand	Light Premium
Size	Mini 1
Colour	White
Properties	Single packed
Features	With release tape
Material	ECF fluff, PE, breathable textile backsheet (BTBS), nonwoven, PP, resin, SAP
Length/depth	22 cm
Width	10 cm
Tolerance	+/- 10%
Absorption Rothwell	180 ml
Gender	Female
Certificates	CE. Nordic Swan Ecolabel. MD. FSC Mix Pulp. UKCA.
Nordic Swan Ecolabel License-No.	5023 0001
CE Class (Medical Devices)	Class I
Product or test standards	ISO 11948-1, ISO 13485, ISO 14001, ISO 9001
Directives, regulations and acts	MDR (EU) 2017/745
Shelf Life	5 years
Storage Instructions	Store dry, room temperature and no direct sunlight.

The Swan label, also known as the Nordic Swan Ecolabel, is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material production, use, documentation and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to www.fsc.org.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

The unique structure of our high performance core is designed for fast dispersion and encapsulation of urine, which results in a dry surface even after multiple voids.

Odor control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal Odor arises from the product.

Effective leakage barriers, both visible and invisible and latex-free elastics ensure a snug fit, which reduces the risk of leakages.

A combination of 100% breathability, Top-Dry and leakage protection provides a dry surface and healthy skin even after multiple voids maintaining the skin's natural pH balance.

The product does not contain latex.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.

The bag with this symbol is made with at least 60% PCR-plastic materials (post-consumer recycled), previously used by consumers. This allows us to reduce our plastic waste and to help take care of the environment.
