Product Main Number 1000021340

shaped pad, ABENA Light Premium, Extra 3, Turquoise colour code, with release tape

- ✓ Efficient core technology ensures fast absorption
- ✓ Top-Dry technology ensures dry surface
- ✓ Effective leakage protection with lying/standing leakage barriers and 360° protection on selected models.
- ✓ Asymmetrical design with wider rear section on selected models provides improved fit and enhanced leakage protection.
- ✓ 100% breathability supports healthy skin

Product Description

ABENA Light is our premium range of anatomically shaped bladder protection pads with adhesive release tape, designed for use in light to moderate incontinence. The high performance core with Top-Dry technology provides fast absorption and optimal skin care by keeping the exposed area comfortable and dry even after multiple voids. The fully breathable pads are fitted with invisible lying leakage barriers, while Abena Light Maxi Plus 5 has standing leakage barriers ensuring optimal protection against leakage. The combination of the three functionalities – breathability, protection and Top-Dry – helps to protect the skin and maintain a natural skin balance. All ABENA Light models (apart from Maxi 4A) feature a printed topsheet, which provides a visually appealing design. ABENA Light Maxi Plus 5 features an asymmetrical shape with a wider rear section for improved fit and enhanced leakage protection. This model combines lengthwise leakage barriers with cross barriers, providing 360° leakage protection. The Odour Control system minimises the risk of unpleasant odours. The dermatologically tested products are certified with the Nordic Swan Ecolabel and produced from FSC certified materials.

Specifications

Base name	Shaped pad
Brand	ABENA
Sub-Brand	Light Premium
Size	Extra 3
Colour	White
Properties	Single packed
Features	Turquoise colour code, with release tape
Material	ECF fluff, PE, breathable textile backsheet (BTBS), nonwoven, polyurethane foam, PP, resin, SAP
Length/depth	33 cm
Width	11 cm
Tolerance	+/- 10%
Absorption Rothwell	500 ml
Gender	Unisex
Certificates	CE. Nordic Swan Ecolabel. MD. FSC Mix Pulp. UKCA.
Nordic Swan Ecolabel License-No.	5023 0001
CE Class (Medical Devices)	Class I
Product or test standards	ISO 11948-1, ISO 13485, ISO 14001, ISO 9001
Directives, regulations and acts	MDR (EU) 2017/745
Safety Instructions And Warnings	Keep out of reach of children.
Shelf Life	5 years

100002134010

Storage Instructions	Store dry, room temperature and no direct sunlight.
Product Disposal Instructions	Can be disposed of with normal household waste sorted according to local regulations.
Packaging Disposal Instructions	Can be recycled or incinerated.

Instructions for use/application

Anatomically shaped pad for light to moderate incontinence. Suitable for active users who want the freedom to live a social life without fear of limitations due to leakages and odours. Easy fixation to normal underwear using self-adhesive tape. Product size recognition using colour codes, names and numbering system on the product and packaging.

The Swan label, also known as the Nordic Swan Ecolabel, is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material production, use, documentation and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to www.fsc.org.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

The unique structure of our high performance core is designed for fast dispersion and encapsulation of urine, which results in a dry surface even after multiple voids.

Odor control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal Odor arises from the product.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Effective leakage barriers, both visible and invisible and latex-free elastics ensure a snug fit, which reduces the risk of leakages.

A combination of 100% breathability, Top-Dry and leakage protection provides a dry surface and healthy skin even after multiple voids maintaining the skin's natural pH balance.

100002134010

The product does not contain latex.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.

The bag with this symbol is made with at least 60% PCR-plastic materials (post-consumer recycled), previously used by consumers. This allows us to reduce our plastic waste and to help take care of the environment.
