

Product Main Number 1000021343

Pad, ABENA Let, Normal, white, pink colour code, with SAP

- ✓ Non-woven material with flow-through backsheet, used as a booster; 100% breathability supports healthy skin; different sizes and absorbency levels

Product Description

The ABENA Let product range is a rectangular pad solution for broad applications. All ABENA Let Airlaid Super, Normal and Maxi are used mainly as a booster pad to provide extra absorption, but can also be used as a maternity pad or functions as a secondary absorbant pad for other bodily fluids. The fully breathable pads with a non-woven backsheet help maintain healthy skin and ensure optimal comfort for the user. They are available in different sizes and absorption levels. ABENA Let Normal and Airlaid both contain superabsorbent polymer (SAP) as part of the Odour Control system.

Specifications

Base name	Pad
Brand	ABENA
Sub-Brand	Let
Size	Normal
Colour	White
Features	Pink colour code, with SAP
Material	ECF fluff, breathable textile backsheet (BTBS), elastane, nonwoven, PP, resin, SAP
Length/depth	39 cm
Width	14 cm
Tolerance	+/- 10%
Absorption Rothwell	500 ml
Gender	Unisex
Certificates	CE. Nordic Swan Ecolabel. MD. UKCA.
Nordic Swan Ecolabel License-No.	5023 0001
CE Class (Medical Devices)	Class I
Product or test standards	ISO 11948-1, ISO 14001, ISO 9001, ISO 13485

Packaging Disposal Instructions	Can be recycled or incinerated.

Instructions for use/application

Rectangular pad for wide use. Mainly used as a booster together with another incontinence product, to increase overall absorbency. If it is not used as a booster, it is recommended to wear fixation pants, for example our ABENA Fix products. Fixation pants ensure a good fit and reduce the risk of leakage. Product size recognition using colour codes and names.

The Swan label, also known as the Nordic Swan Ecolabel, is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material production, use, documentation and safety.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

Odor control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal odor arises from the product.

The bag with this symbol is made with at least 60% PCR-plastic materials (post-consumer recycled), previously used by consumers. This allows us to reduce our plastic waste and to help take care of the environment.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

The Flow Through symbol indicates that the incontinence product can be used as a "booster", which means that the product can be placed into other incontinence products to provide extra absorbency. The booster products have a backsheet made of non-woven materials, where urine can flow through the backside of the product.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.

 The product does not contain latex.
