MD CE UK CA

Product Description

ABENA Pants Basic is our selected range of disposable pants with absorption levels that cover a wide spectrum of needs. The products can be used as regular underpants and are made of breathable and soft material for optimal comfort. The soft waistband with lycra threads provides a secure and snug fitting for the active user. The products feature Top-Dry Technology, which helps to ensure optimal skin care by keeping the exposed area comfortable and dry – even after repeated urination. All products are equipped with leakage barriers (invisible or visible) for extra protection and the Odour Control system minimises unpleasant odours. The discreet wetness indicator with ink print, guides the user and caregiver when the product is fully utilised and needs to be changed.

ODOR CONTROL · PROTECTIVE LEAKAGE BARRIERS · 100% BREATHABLE MATERIAL · WETNESS INDICATOR · TOP-DRY TECHNOLOGY · LATEX

Instructions for use/application

Disposable pants for incontinence which can be worn as normal underwear. The product is especially aimed at self-reliant and active users, but is also a good option for users with dementia, rheumatic or troubled users. Put on the disposable pants just like regular underpants - avoid touching the inside of the nappy. After use, when the product needs to be changed, it is torn up at the side seams and pulled away. Product size recognition based on colour codes, names, and numbering systems

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Odor control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal Odor arises from the product.

Effective leakage barriers, both visible and invisible and latex-free elastics ensure a snug fit, which reduces the risk of leakages.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Wetness indicator is a liquid-sensitive strip that changes colour or fades out indicating when it is time to change the product.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.

The product does not contain latex.
