

Product Main Number 1010001387

Disposable glove, THOR Ultra Tough, M, green, nitrile, powder-free

- ✓ Elastic glove that easily adapts to the hand
- ✓ No latex proteins that can lead to allergy
- ✓ High level of touch sensitivity
- ✓ Chemical resistant

Product Description

THOR Ultra Tough provides great protection combined with good comfort. The nitrile glove is particularly suitable for chemical splashes due to the glove's thickness, yet without compromising touch sensitivity. The glove is particularly suitable for the food industry and automotive industry, as well as for cleaning.

Specifications

Base name	Disposable glove
Brand	THOR
Sub-Brand	Ultra Tough
Size	M
Colour	Green
Properties	Rolled cuff
Features	Powder-free
Single or multiple use	Single use
Material	Nitrile
Length/depth	240 mm
Width	94 mm
Weight, net	6 g
Thickness	Min. 0,15 mm
Certificates	CE. Food contact materials. CAT III.
CE Category (Personal Protective Equipment)	CAT III
Product or test standards	EN ISO 374-1:2016 Type B KPT, EN 374-4:2013, EN 16523, EN 420, AQL 1.5, EN ISO 374-5:2016 Virus
Directives, regulations and acts	(EC) No 1935/2004, (EC) No 2023/2006, (EU) 2016/425, BEK nr 681 af 25/05/2020
Shelf Life	5 years
Storage Instructions	Store dry, room temperature and no direct sunlight.
Product Disposal Instructions	Can be disposed of with normal household waste sorted according to local regulations.
Packaging Disposal Instructions	Can be recycled or incinerated.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

Third-party type approval is required for all Category III personal protective equipment (PPE) products. The showing of the CE logo for chemical protective gloves requires that tests are carried out in accordance with test standards specified in EN ISO 374-1: 2016 + A1: 2018 - such as EN 16523-1: 2015 + A1: 2018 to determine the resistance to the permeation of chemicals. The results of this test determine the relevant pictogram symbols that can be used on the packaging and labeling.

The glass fork symbol guarantees that products have been tested in accordance with European legislation and approved for food contact. The symbol is mandatory on products used for food contact.

The product does not contain latex.

The glove has a finger textured surface.

The glove has a medium grip.

The glove is 240 mm long.

The standard specifies the requirements for protective gloves against chemicals and microorganisms. Type B has been tested for a permeation time of at least 30 minutes with the chemicals sodium hydroxide 40%, hydrogen peroxide 30% and formaldehyde 37%.

The standard specifies the requirements for protective gloves in relation to general requirements and test methods.

The standard specifies the requirements for protective gloves against hazardous chemicals and microorganisms. This part of the standard describes the glove's resistance to bacteria, fungi and viruses.
