- ✓ Produced in cleanroom
- ✓ Can be heated for extra comfort
- ✓ Ideal solution for washing without water and soap
- ✓ Hygienic small package for a full body wash
- ✓ Convenient on the go

### Product Description

ABENA's Bathing Wet Wipes are pre-moistened wipes designed for a convenient and effective cleansing of the body. These wipes are typically used when traditional bathing is not available or for people with mobility issues. Aged skin often requires more delicate and gentle care. ABENA's Bathing Wet Wipes are typically formulated with gentle ingredients and moisturisers to cleanse the skin without causing irritation or dryness. ABENA's Bathing Wet Wipes come in small packages and are ready to use. This makes the wipes very convenient for caregivers or family members assisting immobile people with personal hygiene. The wipe package is pocket-sized, which makes it easy and discreet to carry in a pocket or a bag. Despite their small size, single-pack bathing wipes are often designed for full-body cleansing. This makes them very hygienic, as a single pack can provide a full-body cleansing, which minimises the risk of cross-contamination in e.g. hospitals or nursing homes. The unopened package can also be heated in the microwave for higher comfort.
