Product Description

ABENA Pants Bariatric is our modern disposable trousers for people with a hip size up to 203 cm and can be worn like normal underwear for moderate incontinence. The products are fully breathable, and the Top-Dry Technology support a dry surface, protecting the skin and increasing comfort. The soft pants are equipped with a waistband made of multiple strands of elastics providing a secure and comfortable fit for the mobile user. The products are also fitted with standing leakage barriers for extra protection. The back of the product is clearly indicated by blue elastic threads in the waistband. The Odour Control system minimises unpleasant smells.

Instructions for use/application

Pull-up pants for moderate incontinence, which can be used as regular underwear. Put on the pull-up pants like regular underpants - avoid touching the inside of the pad. After use, when you need to change the pad, tear it at the side seams and pull it away. It is then rolled up and disposed of. Blue elastic strands in the waistband indicate the back of the product. Product size recognisable by colour, name and number system.

The Swan label, also known as the Nordic Swan Ecolabel, is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material production, use, documentation and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. FSC™ Mix means the product consists of a blend of FSC certified wood and recycled materials. For more information, go to www.fsc.org.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Odor control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal Odor arises from the product.

Effective leakage barriers, both visible and invisible and latex-free elastics ensure a snug fit, which reduces the risk of leakages.

Wetness indicator is a liquid-sensitive strip that changes colour or fades out indicating when it is time to change the product.

A combination of 100% breathability, Top-Dry and leakage protection provides a dry surface and healthy skin even after multiple voids maintaining the skin's natural pH balance.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.

The product does not contain latex.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.

The bag is 30% PCR, which means made from plastic materials used by consumers. This will allow us to reduce our plastic waste and to help take care of the environment.
