- ✓ Super soft material ensures optimal comfort
- ✓ 100% breathability supports healthy skin balance
- ✓ Leakage barriers for extra protection
- ✓ Top-Dry Technology support a dry surface
- ✓ Odour Control minimises unpleasant smell

### Product Description

ABENA Pants Special is our premium range of disposable pants for moderate incontinence that can be worn like regular underwear. Designed with legs, these incontinence products feature a unique elasticity in both the legs and crotch area, providing the optimal fit during physical activities. The Top-Dry Technology supports a dry surface, protecting the skin and increasing comfort. The pants have a modern design and are made from breathable material. They are also fitted with leakage barriers for extra protection. When combined, these functionalities help protect the skin and maintain a natural skin balance. The elastic threads offer a secure and comfortable fit and the Odour Control system minimises unpleasant smells.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Odor control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal Odor arises from the product.

Effective leakage barriers, both visible and invisible and latex-free elastics ensure a snug fit, which reduces the risk of leakages.

A combination of 100% breathability, Top-Dry and leakage protection provides a dry surface and healthy skin even after multiple voids maintaining the skin's natural pH balance.

The product does not contain latex.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.
