

Product Main Number 1999911067

Disposable glove, THOR High Risk, M, blue, nitrile, powder free

Product Description

THOR High Risk provides high protection combined with good comfort. These nitrile gloves are particularly suitable for chemical splash protection due to the thickness of the glove, without compromising on touch sensitivity. The gloves are particularly suitable for pharma, food industry, automotive industry and professional cleaning applications.

MEDIUM GRIP

EN ISO 374-5: 2016

AQL 0.65 EN 420

Specifications

Base name	Disposable glove
Brand	THOR
Sub-Brand	High Risk
Size	M
Colour	Blue
Features	Powder free
Single or multiple use	Single use
Material	Nitrile
Length/depth	300 mm
Width	0.095 mm
Weight, net	12 g
Thickness	0,18 +/- 0,01 mm
Certificates	CE. Food contact materials. CAT III.
CE Category (Personal Protective Equipment)	CAT III
Product or test standards	EN ISO 374-5:2016 Virus, EN 374-4:2013, AQL 0.65, EN 16523, EN 420
Directives, regulations and acts	(EC) No 1935/2004, (EC) No 2023/2006, (EU) 2016/425, BEK nr 681 af 25/05/2020
Shelf Life, opened	5 years
Storage Instructions	Store dry, room temperature and no direct sunlight.
Product Disposal Instructions	Can be disposed of with normal household waste sorted according to local regulations.
Packaging Disposal Instructions	Can be recycled or incinerated.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

Third-party type approval is required for all Category III personal protective equipment (PPE) products. The showing of the CE logo for chemical protective gloves requires that tests are carried out in accordance with test standards specified in EN ISO 374-1: 2016 + A1: 2018 - such as EN 16523-1: 2015 + A1: 2018 to determine the resistance to the permeation of chemicals. The results of this test determine the relevant pictogram symbols that can be used on the packaging and labeling.

The glass fork symbol guarantees that products have been tested in accordance with European legislation and approved for food contact. The symbol is mandatory on products used for food contact.

The product does not contain latex.

The glove has a finger textured surface.

The glove has a medium grip.

The glove is 300 mm long.

The standard specifies the requirements for protective gloves against hazardous chemicals and microorganisms. This part of the standard describes the glove's resistance to bacteria, fungi and viruses.

The standard specifies the requirements for protective gloves in relation to general requirements and test methods.
