MD CE UKCA OEKO TEX® STANDARD 100

Product Description

ABENA Fix Briefs Cotton Maxi are elastic and breathable fixation pants without legs, made mainly of cotton. Cotton is a breathable and soft material that allows moisture to leave the skin, so the user feels dry and comfortable at all times. The pants look like normal underwear. The elastic material and knitting construction holds the pad tight to the body to prevent leaks. It offers optimal performance for all activity and mobility levels. The seamless knitting technology – an innovative concept for producing almost seamless clothing – prevents pressure marks and skin irritation. The products can be washed up to 100 times, and therefore have a high cost-effectiveness and long life. ABENA Fix Briefs Cotton Maxi offer easy product recognition thanks to the colour code on the packaging and on the inside of the waistband, providing information about product name, size, washing instructions and material composition. Made of 75% cotton, 18% polyamide and 7% elastane.

Specifications
