Product Description

ABENA Fix Pants Classic is a fixation pants made of a soft and comfortable material that adapts to the body and provides a secure and comfortable fit. The highly elastic material ensures effective fixation of pads for individuals with full mobility. Abena Fix Pants Classic also provides good support for larger pads for people with low mobility. The fixation pant has a snug fit with longer legs and is knitted with a special technology that allows zones of extra support or ventilation to be integrated directly into the fabric. The product has a colour code in the waistband on the inside, which indicates the size. On the packaging you will find colour codes, product name, washing instructions and material composition for easy product identification. Material: 92% polyester, 8% elastane
