- ✓ Thin mesh fixation pants
- ✓ Broad range (S-XXL)
- ✓ Horizontal stabilising zones ensure optimum fixation
- ✓ Colour code waistband for easy product identification
- ✓ Multiple-use: can be washed 25 times"

Product Description

ABENA Fix Net are unisex thin mesh fixation pants for multiple uses. Mesh knit technology is based on warp knitting, a method in which the yarn is knitted in zig-zag stiches through the length of the fabric. ABENA Fix Net features horizontal stabilising zones, ideal for keeping larger pads securely in place. Despite the light construction, the mesh products are durable. ABENA Fix Net offer easy product recognition thanks to the colour code on the packaging and on the inside of the waistband. The packaging also contains information about product name, size, washing instructions and material composition. Made of 87% polyester and 13% elastane.

Specifications

MD — Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

CE — The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

UKCA — The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

OEKO TEX STANDARD 100 — OEKO-TEX, also known as "Confidence in Textiles", is a health and environmental label used throughout the world. The certificate ensures that textiles do not contain substances that are harmful to health or the environment.

LATEX — The product does not contain latex.

60°C — The product can be washed at 60 degrees or below.

Do not bleach the product.

The product can be dried in the tumble dryer at low temperatures.

Do not iron the product.

Do not dry clean the product.

25 x — The product can be washed up to 25 times.

MESH KNIT TECHNOLOGY — Mesh knitting technology is based on warp knitting, a method in which the yarn forms zigzag stitches along the length of the fabric, as opposed to seamless/weft knitting.

ANATOMICAL FIT AND SECURE — Designed to follow the body's contours, ensuring a secure, comfortable fit that stays in place.
