Underpad, ABENA Underpads Superdry, 60x90cm, with SAP

- ✓ High absorbency
- ✓ Peace of mind and protection around the clock
- ✓ Soft, comfortable material

Product Description

ABENA Underpads Superdry are used as protective disposable underpads, for e.g. beds and chairs to provide peace of mind for the user in any situation. These underpads are particularly suitable for incontinent users, but are also well-suited for non-sterile procedures. The underpad contains both fluff and SAP, which encapsulates the liquid even faster and keeps the surface dry and comfortable. These underpads are developed with a specific odor system that minimizes unpleasant odors. In addition to helping provide peace of mind when the user is seated or lying down, the use of disposable underpads also serves to reduce the risk of contamination. At the same time, it ensures increased hygiene. The sealed edges give optimum leakage protection, and the surface is covered with a soft nonwoven material for enhanced user comfort. ABENA Underpads Superdry provide light to moderate absorbency and are available in different sizes.

Specifications

Base name	Underpad
Brand	ABENA
Sub-Brand	Underpads Superdry
Secondary color	Light blue
Features	With SAP
Single or multiple use	Single use
Material	PE, fluff, nonwoven, SAP
Ingredient list	Fluff 28 g, nonwoven 15 g/m ² , PE 20 g/m ² , SAP 6 g
Length/depth	60 cm
Width	90 cm
Weight, net	60 g
Tolerance	+/- 5 cm
Absorption Rothwell	1100 ml
Certificates	CE. FSC Mix. MD. UKCA.
CE Class (Medical Devices)	Class I
Product or test standards	ISO 11948-1
Directives, regulations and acts	MDR (EU) 2017/745
Shelf Life	5 years
Storage Instructions	Store dry, room temperature and no direct sunlight.
Product Disposal Instructions	Can be disposed of with normal household waste sorted according to local regulations. If contamination is suspected, the product must be discarded as clinical waste.
Packaging Disposal Instructions	Can be recycled or incinerated.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. FSC™ Mix means the product consists of a blend of FSC certified wood and recycled materials. For more information, go to www.fsc.org.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

Special feature in incontinence products and baby diapers that help disperse fluid and keep the skin dry.

Raw material that absorbs its own weight 10 times and has excellent fluid dispersion capabilities.

ABENA's incontinence products are designed and engineered to ensure minimal odor arises from the product. Odor control is a critical factor in ensuring discreteness for the user.

Superabsorbent Polyacrylate is a raw material that can absorb and retain large volumes of liquid by forming a gel.

The product is only for single-use.

Liquid-safe backsheet for added leakage protection.
