- ✓ Washable absorbent underpad
- ✓ Superior user comfort
- ✓ OEKO-TEX certified
- ✓ Breathable and liquid safe material
- ✓ Peace of mind and protection around the clock
- ✓ Soft, smooth material
- ✓ Withstands at least 100 wash cycles

Product Description

ABENA Underpads Washable are primarily used as protective covers for beds and mattresses, providing user peace of mind in any situation. The underpads are made of a washable material that can withstand laundering at temperatures of up to 95 °C. This makes the sheet both a practical and discreet solution for users who want extra protection for incontinence problems. The underpads have a liquid safe barrier layer to prevent leakage. The material is also breathable and the surface is soft and smooth for optimum user comfort. The underpads are designed with rounded corners to reduce wear and tear from regular laundering. ABENA Washable is available in two special versions: with either wings or handles. Our underpads with wings are particularly suitable for active and restless users, as the wings at the sides ensure that the underpad stays put. Alternatively, the other variant with handles at the sides is highly practical in situations where aided repositioning is needed, as the handles make it easy to turn or move the user in their bed.

Specifications

| | |
|----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Base name | Underpad |
| Brand | ABENA |
| Sub-Brand | Underpads Washable |
| Secondary color | Light blue |
| Single or multiple use | Multiple use |

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

OEKO-TEX, also known as "Confidence in Textiles", is a health and environmental label used throughout the world. The certificate ensures that textiles do not contain substances that are harmful to health or the environment.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

The product has a very soft surface to ensure a comfortable fit.

Liquid-safe backsheet for added leakage protection.
