

Product Main Number 1999916531 Puri-Line

Washing powder, ABENA Puri-Line, colour, without colour and scent, 2 kg

- ✓ Ecolabeled fragrance-free washing powder
- ✓ Effective laundry detergent for all-round use
- ✓ Hypoallergenic

Product Description

ABENA's comprehensive range of cleaning products includes our effective laundry powder detergent for coloured fabrics. This washing powder is Nordic Ecolabeled and significantly reduces the risk of allergies by containing no phosphate, optical brightener, colour or scent. For best results, wash at a minimum of 30 °C. This washing powder should not be used for laundering delicate fabrics like wool or silk. For these fabrics, we recommend using our washing powder for wool and other sensitive textiles. With ABENA's washing powder, you will achieve clean, stainfree fabrics, as the content of agents such as enzymes is effective in breaking down the proteins, starch and grease typically present in food stains, perspiration and similar stains. The enzymes are active up to 70 °C. A single pack of laundry powder detergent is enough for approx. 55 washes in medium hard water (8-14 °dH) for a 3-5 kg averagely soiled load.

Specifications

Base name	Washing powder
Brand	ABENA
Sub-Brand	Puri-Line
Features	Colour, without colour and scent
Weight, net	2 kg
Certificates	Nordic Swan Ecolabel.
Directives, regulations and acts	(EC) 1272/2008, (EC) No 648/2004

Safety Instructions And Warnings	Must not be used for washing wool and silk.
Storage Instructions	Store clean and dry.
Product Disposal Instructions	To be recycled or incinerated.
Packaging Disposal Instructions	Can be recycled or incinerated.

Instructions for use/application

Dose the washing powder in the detergent compartment using a tablespoon or a measuring beaker. A regular tablespoon holds 15 ml of washing powder. Adjust the dosage to the water hardness and level of soiling. Select the recommended wash cycle. Ideally, always wash a full machine. Using more detergent will not make your laundry cleaner and is harmful to the environment. Lower the temperature of normal washing programs to protect the environment.
