

Product Main Number 1999918918

Odour remover, ABENA, 750 ml, ready-to-use, biological, without colour, with perfume

- ✓ Effective elimination of bad odours
- ✓ Preventive effect

Product Description

Odour remover from ABENA's own biological product range, which has been developed with a formula that makes use of both chemical agents, microorganisms and enzymes. The result is that you do not only solve a cleaning task here and now, but the source of the problem is eliminated. In other words, the composition of the product helps to prevent the problem from recurring. The odour remover is especially intended for odour control around toilets, urinals, shower cabins, drains, textile surfaces on floors and furniture etc. The unique formula converts organic materials (urine, vomit, food scraps, etc.) into water and carbon dioxide, thus removing the source of bad odours. The odour remover is available both with and without perfume.
