- ✓ Absorbent material
- ✓ Lightweight and hygienic solution
- ✓ Liquid safe back sheet and sealed sides
- ✓ Reinforced with threads
- ✓ Dermatologically tested
- ✓ Available in different sizes
- ✓ 3 layers for greater absorption
- ✓ FSC

Product Description

Abri-Bed Light protective sheets are used to protect e.g. beds and couches. The protective sheet has an absorbent surface and a liquid-safe back sheet, and the sealed sides provide optimum protection against leaks. The threads make the protective sheet extra strong, making it well-suited to reposition users in the bed. Using disposable protective sheets reduces the risk of contamination and improves hygiene. Abri-Bed Light is available in different sizes.

Specifications

Base name	Protective sheet with threads
Brand	ABENA
Sub-Brand	Abri-Bed Light
Colour	White
Properties	With 48 threads
Single or multiple use	Single use
Material	PE, paper, virgin fiber
Length/depth	170 cm
Width	80 cm
Layer quantity	3 layers
Absorption Rothwell	550 ml
Certificates	CE. FSC Mix. MD.
CE Class (Medical Devices)	Class I
Product or test standards	ISO 11948-1
Directives, regulations and acts	MDR (EU) 2017/745
HMI-no.	107871
Shelf Life	5 years

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. FSC™ Mix means the product consists of a blend of FSC certified wood and recycled materials. For more information, go to www.fsc.org.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The Dermatologically Tested symbol guarantees that products have been tested for potential skin irritations by an independent third-party laboratory.

The product is only for single-use.
