- ✓ Absorbent fluff and SAP core
- ✓ Breathable backing sheet
- ✓ Allows skin to breathe
- ✓ Better body temperature regulation
- ✓ Extra strong and approved for user lifting
- ✓ Soft and smooth non-woven surface
- ✓ Rapid liquid absorption
- ✓ Liquid safe back sheet and sealed edges for added protection

### Product Description

Abri-Soft Premium is a breathable, disposable underpad for protection of beds and couches. Suitable for ambulances, emergency rooms, intensive care units and operating theatres. The breathable back sheet reduces the risk of skin irritation and helps to regulate the body temperature. Abri-Soft Premium underpad is extra strong and is tested for loads of up to 150 kg for a maximum of 1 minute. It contains both fluff and SAP, which encapsulates the liquid even faster and keeps the surface dry and comfortable. The odor system minimises unpleasant smells. In addition, the underpad has sealed edges for optimum leak protection, and the surface is covered with a soft non-woven material for enhanced user comfort. The use of disposable underpads reduces the risk of contamination. Abri-Soft Premium offers moderate absorbency.

### Specifications

Base name	Underpad
Brand	ABENA
Sub-Brand	Abri-Soft Premium
Colour	White
Properties	Loading capacity 150 kg
Features	With SAP
Single or multiple use	Single use

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. FSC™ Mix means the product consists of a blend of FSC certified wood and recycled materials. For more information, go to [www.fsc.org](http://www.fsc.org).

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

Odor control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal Odor arises from the product.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Backsheet with a loading capacity of up to 150 kg.

Superabsorbent Polyacrylate is a raw material that can absorb and retain large volumes of liquid by forming a gel.

The product is only for single-use.

The product has a very soft surface to ensure a comfortable fit.
