- ✓ Textile-feel back sheet: comfortable and discreet
- ✓ Anatomically shaped for better fit
- ✓ Leakage barriers for extra protection
- ✓ Efficient core technology for fast absorption
- ✓ Odor Control
- ✓ Wetness indicator

Product Description

Delta-San is our range of anatomically shaped pads with a textile-feel back sheet to provide discreet security and comfort for moderate to heavy incontinence. The anatomically shaped pads offer excellent fit for free movements. All products are fitted with leakage barriers for extra protection and the odor system minimises unpleasant smells. The wetness indicator turns blue when the product is wet.

Instructions for use/application

Shaped pad for moderate to heavy incontinence. Delta-San should always be used with special fixation underwear, like our Abri-Fix products. Fixation pants ensure a close fit and reduce the risk of leakage. Easy product size recognition by coloured back sheet including printed description. Please follow our guide on our website for correct application of the product.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The product is equipped with a 360 degree barrier to prevent leakage.

ABENA's incontinence products are designed and engineered to ensure minimal odor arises from the product. Odor control is a critical factor in ensuring discreteness for the user.

The product does not contain latex.
