Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

OEKO-TEX, also known as "Confidence in Textiles", is a health and environmental label used throughout the world. The certificate ensures that textiles do not contain substances that are harmful to health or the environment.

The product does not contain latex.

The product is with a pocket.
