Product Description

Abri-Fix Net are unisex thin mesh fixation pants for multiple use. Mesh knit technology is based on warp knitting, a method where the yarn is knitted in zig-zag stitches through the length of the fabric. Abri-Fix Net pants feature horizontal stabilising zones, ideal for keeping larger pads securely in place. Despite of the light construction, the mesh products are durable. Abri-Fix Net pants have colour coded waistbands for easy size identification. 87% polyester, 13% elastane
