- ✓ Odor Control
- ✓ Nordic Eco Label
- ✓ Dermatologically tested.

Product Description

Abri-Form is our Premium range of all-in-one briefs for moderate to heavy incontinence. The fully breathable and anatomically shaped briefs provide full leakage protection and an optimal fit. All products are equipped with leakage barriers and curved leg elastics. Selected products also have built-in cross barriers. The combination of different barriers and elastics offers ultimate leakage protection all around the product. The products feature the Top-Dry system which ensures a dry surface even after repeated urination, maintaining skin integrity. The efficient core technology provides fast absorption and high performance. The odor control system minimises unpleasant smells. The high quality flexible combination tapes with double tape function ensure optimum fit and easy repositioning. The wetness indicator with graduated scale guides the user and carer to the product with the right absorption level and product changes. These dermatologically tested products feature the Nordic Eco Label.

Can be recycled or incinerated.

Instructions for use/application

All-in-one briefs for moderate to heavy incontinence. Fold the brief lengthways with the backsheets turned outwards. Pull the brief from front to back. Pull out the front of the brief, creating a channel shape between the legs. Fasten the bottom tapes on both sides and then fasten the top tapes angled downwards for a secure and comfortable fit.

The Swan label, also known as the Nordic Swan Ecolabel, is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material production, use, documentation and safety.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The Dermatologically Tested symbol guarantees that products have been tested for potential skin irritations by an independent third-party laboratory.

Unique TopDry system that provides a rapid absorption and a dry surface.

Wetness indicator is a liquid-sensitive strip that changes color and indicates when it is time to change the product.

The product is equipped with a 360 degree barrier to prevent leakage.

ABENA's incontinence products are designed and engineered to ensure minimal odor arises from the product. Odor control is a critical factor in ensuring discreteness for the user.

The product is fully breathable making it more comfortable for a longer period of time.

Dual Wrapped Core technology provides full absorption precisely where needed, achieving best possible performance and discrete products.

ABENA's unique feature preventing leakage all around the product and providing an optimal fit.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.

The product is equipped with flexible tape for comfort and leakage security.

The product does not contain latex.
